BUSOL ECO-CLEAN

Non Alkaline General Purpose Degreaser

- Retains strong degreasing properties when diluted.
- Suitable for most surfaces finishes.
- Leaves no film residues on cleaned surfaces.
- Suitable on most common ferrous metals
- Safe for tin, zinc, aluminium or galvanized materials.

APPLICATION

Busol Eco-Clean is used for accommodation floors, tank, bulkheads, and deck heads. It is effective on ships superstructure or in the engine room.

DIRECTION FOR USE

Spraying

For heavy contamination, Busol Eco-Clean is sprayed on undiluted and left for 20-60 minutes. It must then be hosed off with a powerful water jet, while brushing the surface.

General Cleaning

Busol Eco-Clean can be applied by brush, spraygun, in an ultrasonic tanksystem, in immersion baths with neat product or diluted in water up to 10% according to the type and amount of contamination to be removed.

After application in the engine room, slops must be allowed to separate for approx. 3 hours before treatment in the oil / water separator.

Tank -cleaning

When using an automatic tank-wash system inject directly into the BWT line or gun-cleaner in a solution of approx. 0,5 - 1 per 1000 lt.

When re-circulating from one tank into the next, use a concentration of approx. 3% - 4%. Use the same solution for approx. 4 - 5 tanks, depending on capacity and contamination.

Spot cleaning

If necessary the product can be used neat. Spray on the surface to be cleaned and allow soaking for approx. 30 minutes before washing off with plenty of water. Best results are obtained when the solution is heated up until 40°C - 60°C.

PROPERTIES

Contains concentrate chemical.
